

Senate Resolution

Be it hereby Resolved That the President of the United States of America order a total removal of all contaminants from the Velsicol Chemical site in Saint Louis, Michigan, so that it and other related sites can properly be removed from the CERCLA National Priority List and the land restored to residential and recreational use.

Be it further Resolved That the President of the United States order the remediation of this site to begin during 2007, since this site is fifty two (52) times more polluted than the famous Love Canal.

Be it further Resolved That the clean-up standard applied to this site must include termination of the need for any fish consumption ban in the Pine River arising from this site and restoration and permanent protection of the city's drinking water supply free of contaminants originating in the Velsicol Chemical site and related sites.
